

# System 4.0

White Label Marketing System

Web | Mobile | Social | Email | SMS | Voice | CRM

# Salespeople love our software!

Gives each salesperson a unique presence on the Internet to sell more of your products and services.

Create a website, product page, landing page, etc. just once and replicate it for a team of 10 salespeople or 10,000 or more salespeople.

Helps make each salesperson more productive, find new sales opportunities, generate leads and follow through until the sale is made.

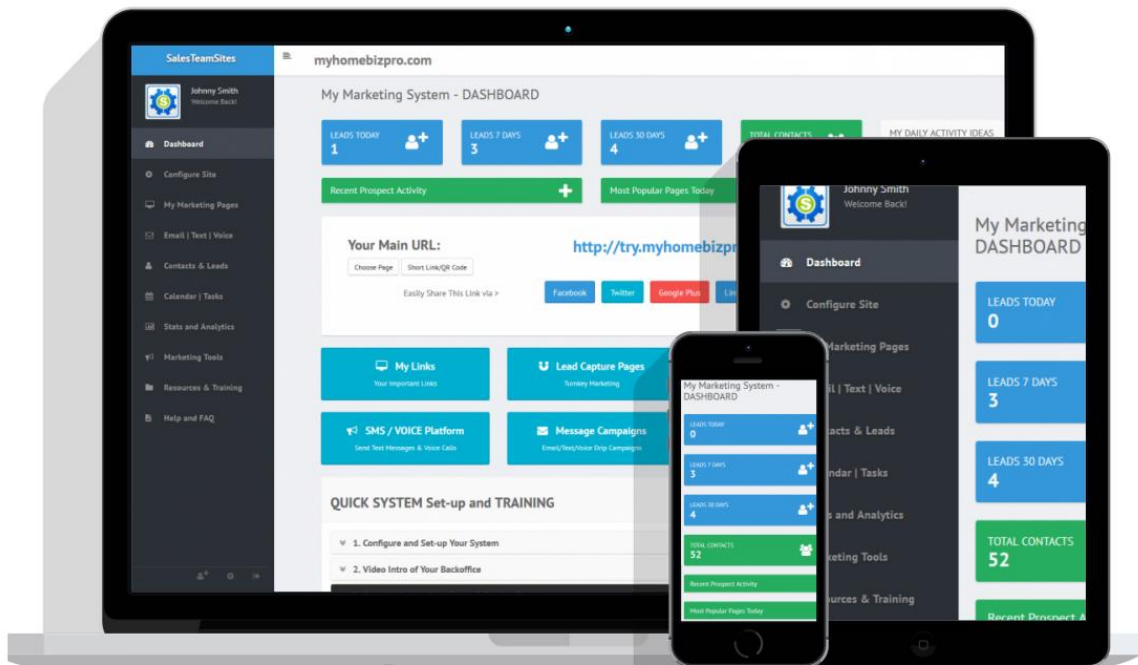

Proven in the network marketing industry, the software platform can fit virtually any company with multiple salespeople.

The screenshot displays the SalesTeamSites CRM interface for a contact named 'myhomebizpro.com'. The interface includes a sidebar with navigation options like 'Dashboard', 'Configure Site', 'My Marketing Pages', 'Email | Text | Voice', 'Contacts & Leads', 'Calendar | Tools', 'Stats and Analytics', 'Marketing Tools', 'Resources & Training', and 'Help and FAQ'. The main content area shows a 'Notes' section with a text entry: '11/05/2015 2:57 am - looking good'. Below this is a 'SCORES - Prospect Score History' table with a 'Current Score: 71'. The table lists activities and their corresponding scores and automation types. Below the table is a 'MANAGE Scoring System' section with a 'New Prospect Activity?' dropdown and an 'ADD SCORE' button. At the bottom, there is an 'EMAILS - Prospect Email History' table showing a single email entry.
